PROFESSIONAL SUMMARY

Java Full Stack Developer with experience building scalable applications using Java, Spring Boot, React.js, and Microservices. Skilled in modernizing legacy applications using Domain-Driven Design (DDD) and developing Generative AI & Agentic AI solutions with Spring AI, LangChain, and LLM integrations. Proficient in RESTful API development, cloud-native architectures, Docker-based deployments, SQL databases, and Agile software development practices.

TECHNICAL SKILLS

Languages: C++, Java, SQL, Python

Web Technologies: HTML, Tailwind CSS, React.js (AI-assisted frontend development)

Frameworks & Libraries: Spring Boot, Spring Security, Spring Cloud, Spring AI, Hibernate, JUnit 5, LangChain

AI & GenAI: Generative AI (GenAI), Agentic AI, LLM Integration, Prompt Engineering, Retrieval-Augmented Generation (RAG)

Architecture: Microservices, DDD, System Design

Cloud Services: EC2, ECS, Lambda, S3, IAM, CloudFormation

API Management: RESTful APIs, Swagger (OpenAPI), Postman

Databases & Messaging: MySQL, PostgreSQL, Apache Kafka, RabbitMQ

CI/CD & DevOps: Docker, Git, GitHub

Observability & Monitoring: OpenTelemetry, Structured Logging & Metrics, Prometheus, Grafana, LangFuse

Security: OAuth 2.0, JWT, Keycloak

Development Practices: Agile Methodologies, Code Reviews, Debugging, Unit Testing

Other: Data Structures & Algorithms (DSA)

PROFESSIONAL EXPERIENCE

Java Full Stack Developer

[Capgemini Private Limited, Pune]

July 2025 – Present

Legacy Java Application Modernization (DDD)

- Contributed to the modernization of legacy Java applications by applying Domain-Driven Design (DDD) principles, including bounded contexts, aggregates, entities, value objects, and domain services.
- Refactored tightly coupled legacy components into modular and maintainable services, improving code quality, scalability, and long-term maintainability.
- Applied strategic DDD patterns such as context mapping and anti-corruption layers to facilitate integration between modernized modules and existing legacy systems.
- Collaborated with business analysts, product managers, UI/UX designers, and QA teams to align technical solutions with business requirements and deliver features in Agile sprints.
- Participated in code reviews, debugging, unit testing, and defect resolution activities to ensure high-quality software delivery.

Generative AI & Agentic AI Development

- Developed AI-powered applications using Spring AI, LangChain and Large Language Model (LLM) integrations to deliver intelligent automation and conversational experiences.
- Designed evaluation and observability workflows for Agentic AI systems using LangFuse, structured logging, and tracing to monitor response quality, tool usage, and task completion accuracy.
- Developed GenAI-powered features including intelligent document summarization, context-aware Q&A, and AI chatbot solutions using LLM APIs for enhanced user productivity.
- Built Agentic AI workflows with tool-calling capabilities, excel harness, enabling AI agents to interact with external APIs, databases, and enterprise services through Model Context Protocol (MCP).
- Integrated GenAI capabilities into existing Spring Boot microservices, exposing AI features via RESTful APIs documented with Swagger.

SELECTED ENTERPRISE PROJECTS

Bank Application (Microservices)

January 2026-April 2026

- Architected 3 independent Microservices (Accounts, Loans, Cards) with centralized configuration management using Spring Cloud Config Server, reducing configuration drift across environments.
- Implemented service discovery using Eureka Server and API Gateway for routing, authentication, and cross-cutting concerns with AOP.
- Integrated RabbitMQ and Kafka for event-driven communication and containerized all services with Docker and Docker Compose for consistent and streamlined deployments.
- Applied circuit-breaker resilience patterns for fault tolerance and configured Prometheus and Grafana observability dashboards monitoring service health metrics in real time.
- Secured inter-service communication using OAuth2 with JWT and Keycloak, implementing role-based access control across all 3 microservices.
- Documented 20+ RESTful APIs using Swagger (OpenAPI) and validated all endpoints with Postman, achieving full API test coverage.

Technologies: Java | Spring Boot | Microservices | Spring Security | MySQL | Spring Cloud | Docker | Kafka | RabbitMQ | Prometheus | Grafana | JWT | OAuth2

E-Commerce Book Application

September 2025 – December 2025

- Built a full-stack Book Application using Java, Spring Boot, React.js, and MySQL with JWT-secured Microservices; integrated Razorpay for secure real-time payment processing and transaction management.
- Integrated MySQL for transactional data management and Cloudinary for storing and delivering book thumbnails, enabling efficient media handling and seamless content delivery.
- Improved API response time through optimized Spring Boot services and efficient query design, enhancing overall system performance.
- Developed role-specific dashboards with admin CRUD operations, ensuring controlled content management across 3 distinct user roles.
- Integrated an AI-powered chatbot using Spring AI, automating support responses and increasing user engagement.
- Documented 15+ RESTful APIs using Swagger; performed code reviews and delivered features in Agile sprints in collaboration with UI/UX and QA teams.

Technologies: Java | Spring Boot | Microservices | Spring Security | MySQL | Spring Cloud | Spring AI | React.js

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02)

December 2025

Basics of Python — Coding Ninjas

April 2024

SQL Basic — HackerRank

August 2024

ACHIEVEMENTS

- 5 Star HackerRank in SQL.
- Secured AIR 1519 in GATE 2023 — Scored 357 in GATE MA (Mathematics) with an All India Rank of 1519.

EDUCATION

Lovely Professional University

Jalandhar, Punjab

Master of Computer Applications (MCA) — CGPA: 8/10

Aug 2023 – June 2025

Paliwal P.G. College

Shikohabad, Uttar Pradesh

Bachelor of Science (Computer Science)

Aug 2020 – May 2023

Young Scholars Academy

Shikohabad, Uttar Pradesh

12th with PCM

2018 – 2019
